

Election of Species

Applicant elects the "reflective layer" species recited in claims 14 and 15. Newly presented claims 55-78 each recite "a first and a second reflective layer, each of said first and second reflective layers being located on opposite sides of said active layer, said reflective layers serving to reflect light emitted by said active layer, said reflective layers including multiple quantum wells".

Examination of the application is requested.

Respectfully submitted this 6<sup>th</sup> day of March, 2003.
